(CIA LETTERHEAD)

30 October 1973

STATOTH

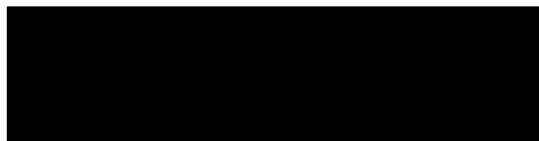

Thank you for your letter of 24 October 1973 inquiring about the Summer Intern Studies Program.

A CIA internship does make one permanently ineligible for a Ford grant. Until this year, the same was true of Fulbright; we have recently been advised, however, that the Fulbright exclusion policy has been dropped. I do not plan to publicize this change until it is confirmed, but I believe you can safely assume that a CIA internship would in no way make you ineligible for a Fulbright grant.

Sincerely,

STATINTL

Deputy Director  
Basic and Geographic Intelligence
